EDUCATION

Memorial University of Newfoundland

Bachelor of Engineering and Applied Science - Co-op Program
Process Engineering, 2nd year, Class of 2029

SKILLS

CAD & Engineering AutoCAD · Onshape · DraftSight

Programming & Tools Python · Excel · Microsoft Office

Soft Skills Team Collaboration · Adaptability · Reliability ·
Time Management · Written and Verbal Communication

PROJECTS

- LiDAR and Radar Drone Mount (CAD)
 - Designed and modelled a custom drone-mounted sensor bracket using CAD to securely integrate LiDAR and radar systems
 - Optimized geometry for weight reduction, structural stability, and vibration minimization during flight
 - Fabricated prototype using 3D printing and iterated on design based on fitment and performance testing
- Smart Irrigation Control System (Arduino-Based)
 - Designed and built an automated irrigation system using moisture and motion sensors to optimize water usage
 - Programmed control logic to trigger a servo-actuated valve system based on real-time environmental inputs
 - Integrated user feedback through an LCD interface and alert system (buzzer)

AWARDS

- Transforming Our Horizons Entrance Scholarship - \$6000
- Swimming NL/Memorial University Bursary - \$1500
- Centenary of Responsible Government Scholarship - \$1000
- First place in marketing display in ranger class at MATE's national ROV competition
- Gander Collegiate excellence award in mathematics - 2022, 2023, 2024

PROFESSIONAL EXPERIENCE

Engineering Student

DOF Subsea | St. John's, NL | January - May, 2026

- Developed deck layouts using CAD to support safe operations during offshore activities
- Completed a rotation offshore on the Skandi Vinland to support a choke changeout on a subsea christmas tree, working directly with offshore crews during subsea operations
- Created routine subsea integrity inspection (RSII) closeout reports and a full choke changeout closeout report
- Wrote SIMOPS plans to coordinate simultaneous activities across vessels for the VMOS project in Argentina
- Attended pressure testing of subsea tools at OneSubsea, gaining exposure to factory acceptance test (FAT) procedures and acceptance criteria

EXTRA CURRICULARS

Varsity Student Athlete

- 6x provincial record holder
- 2x school record holder
- Maintain 20+ hour training weeks
- Demonstrated strong time management, perseverance, and team collaboration

CERTIFICATIONS

- Valid Drivers License
- Standard First Aid and AED
- National Lifeguard
- WHMIS

VOLUNTEER EXPERIENCE

- Swim For Hope Fundraiser - Dr. H Bliss Murphy Cancer Centre (2015 - Present)
- Volunteer Basketball Coach - Elementary and Jr. High School (2022 - 2024)

INTERESTS

Swimming · Golfing · Travelling · Hiking ·
Running · Snowboarding · Basketball
